The “Hospital Admission Date” element (TR25.33) is defined as “date patient was discharged from the ED (or arrived at the facility if the patient was a direct admit)”. If you used the ‘Date/Time Helper’ from the Demographics Screen, this information will already be in the system. Also, if you would prefer not to type in the date, click on the calendar icon and select a date. The date is used to auto-generate an additional calculated field: Total Length of Hospital Stay (elapsed time from ED/Hospital Arrival to ED/Hospital Discharge).

The “Hospital Admission Time” element (TR25.47) is defined as “time patient was discharged from the ED (or arrived at the facility if the patient was a direct admit)”. If you used the ‘Date/Time Helper’ from the Demographics Screen, this information will already be in the system. The date is used to auto-generate an additional calculated field: Total Length of Hospital Stay (elapsed time from ED/Hospital Arrival to ED/Hospital Discharge).

The “Total ICU Days” element (TR26.9) is defined as “the cumulative amount of time spent in the ICU. Each partial or full day should be measured as one calendar day”. This is a national data element.

The “Total Ventilator Days” element (TR26.58) is defined as “the cumulative amount of time spent on the ventilator. Each partial or full day should be measured as one calendar day (excluding time in the OR)”. This is a national data element.

Outcome Screen – Financial Information

The screenshot shows a web-based form titled "Outcome Screen – Financial Information". At the top, there is a navigation bar with tabs: "Diagnoses", "Comorbidity", "Procedures", "Complications", and "Outcome Information". Below the navigation bar, there is a "Mark As Completed" checkbox. The form displays patient information: "Trauma Registry #: IT-130926-205", "Patient: Smith, JoBeth L", "Medical Record Number: test", "NTR Inclusion: Yes", and "Updated: 10/25/13 by Katherine Gatz". The "Financial Information" section contains several fields: "Primary Method of Payment:" with a drop-down menu showing "Other", "Billed Hospital Charges:" with a text input field and a note "(without '\$' symbol)", "Other Billing Source:" with a text input field, "Secondary Method of Payment:" with a drop-down menu showing "Other", "Secondary Other Billing Source:" with a text input field, "Third Method of Payment:" with a drop-down menu showing "Other", and "Third Other Billing Source:" with a text input field. On the right side of the form, there is a vertical toolbar with icons for search, edit, print, and a clock. At the bottom of the form, there are two buttons: "Save" and "Save and Continue".

The “Primary Method of Payment” element (TR2.5) is defined as “the primary source of payment for hospital care”. Select an option from the drop-down menu. This is a national data element.

If “Other” is selected in the “Primary Method of Payment” element, a new data element (TR2.13) will appear on the form that will allow you to textually enter the billing source.

The “Secondary Method of Payment” element (TR2.7) is defined as “any known secondary source of finance expected to assist in payment of medical bills”. Select an option from the drop-down menu.

Outcome Screen – Financial Information (2)

The screenshot shows a web-based form titled "Outcome Screen – Financial Information (2)". At the top, there are tabs for "Diagnoses", "Comorbidity", "Procedures", "Complications", and "Outcome Information". The "Outcome Information" tab is selected. Below the tabs, there is a "Mark As Completed" checkbox which is checked. The form displays patient information: "Trauma Registry #: IT-130926-205", "Patient: Smith, JoBeth L.", "Medical Record Number: test", "NTR Inclusion: Yes", and "Updated: 10/25/13 by Katherine Gatz". The main section is titled "Financial Information" and contains several fields: "Primary Method of Payment:" with a dropdown menu showing "Other", "Billed Hospital Charges:" with a text input field and a note "(without '\$' symbol)", "Other Billing Source:" with a text input field, "Secondary Method of Payment:" with a dropdown menu showing "Other", "Secondary Other Billing Source:" with a text input field, "Third Method of Payment:" with a dropdown menu showing "Other", and "Third Other Billing Source:" with a text input field. On the right side of the form, there is a vertical toolbar with icons for search, edit, print, and a clock. At the bottom of the form, there are two buttons: "Save" and "Save and Continue".

If "Other" is selected in the "Secondary Method of Payment" element, a new data element (TR2.14) will appear on the form that will allow you to textually enter the billing source.

The "tHIRD Method of Payment" element (TR2.18) is defined as "any known third source of finance expected to assist in payment of medical bills". Select an option from the drop-down menu.

If "Other" is selected in the "Third Method of Payment" element, a new data element (TR2.19) will appear on the form that will allow you to textually enter the billing source.

The "Billed Hospital Charges" element (TR2.9) is defined as "the total amount the hospital charged for the patient's care". Enter a numerical value without the dollar sign.

The “Hospital Discharge Disposition” element (TR25.27) is defined as “the disposition of the patient when discharged from the hospital”. Select an option from the drop-down menu. This is a national data element.

Outcome Screen – Disposition (2)

Disposition

Hospital Discharge Disposition: Expired *

Date/Time Death Occurred: (HHmm)

Location of Death: Not Applicable

Death Circumstance: Not Applicable

Circumstances of Death:

Organ Donation: Not Applicable

Autopsy Performed: Not Applicable

Advanced Directive: Not Applicable

Back

If “Expired” is selected in the “Hospital Discharge Disposition” element, six new data elements will appear on the form that will allow you to enter additional information regarding the patient’s death. The first of the six elements is the “Date/Time Death Occurred” element (TR25.36) which is defined as “the date and time the patient expired”. If you would prefer not to type in the date, click on the calendar icon and select a date. The second element is the “Death Circumstance” element (TR25.32) which is defined as “indicates the patient’s primary cause of death”.

Outcome Screen – Disposition (3)

The screenshot shows a web-based form titled "Disposition". It contains several input fields and dropdown menus. The "Hospital Discharge Disposition" dropdown is set to "Expired". The "Date/Time Death Occurred" field has a date picker icon and a time input field labeled "(HHmm)". The "Location of Death" dropdown is set to "Not Applicable". The "Death Circumstance" dropdown is set to "Other", which has triggered the appearance of a text area labeled "Circumstances of Death". Below this, there are three more dropdown menus: "Organ Donation", "Autopsy Performed", and "Advanced Directive", all of which are currently set to "Not Applicable". A "Back" button with a left arrow icon is located at the bottom left of the form. A red dashed line with a red triangle pointing right is at the bottom of the screen.

Disposition

Hospital Discharge Disposition: Expired

Date/Time Death Occurred: (HHmm)

Location of Death: Not Applicable

Death Circumstance: Other

Circumstances of Death:

Organ Donation: Not Applicable

Autopsy Performed: Not Applicable

Advanced Directive: Not Applicable

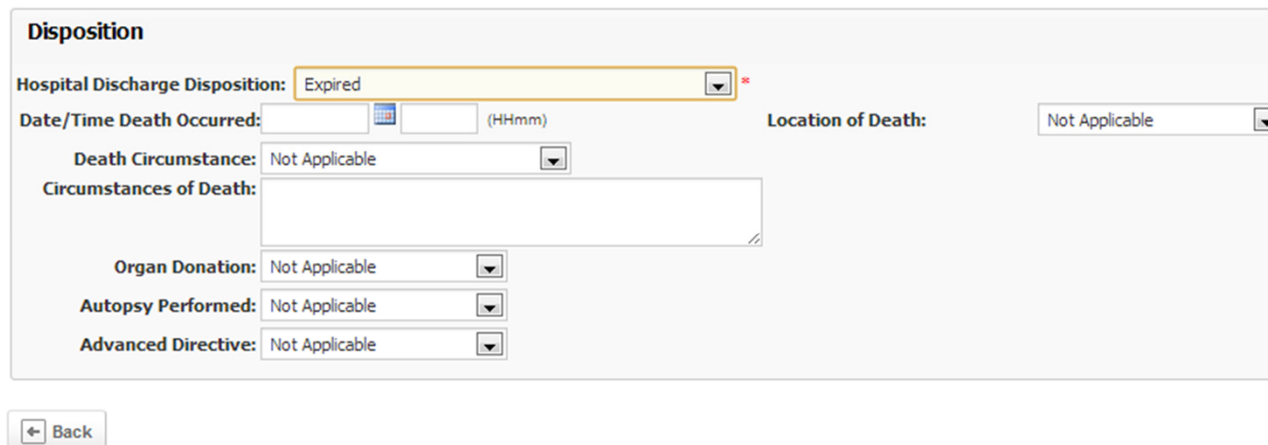

← Back

If “Other” is selected in the “Death Circumstance” element, a new data element (TR25.45) will appear on the form that will allow you to textually enter the circumstance under which the patient died.

The third element is the “Location of Death” element (TR25.30) which is defined as “the location where the patient expired”.

The fourth element is the “Organ Donation” element (TR25.29) which is defined as “to make a gift of a differentiated structure (as a heart, kidney, leaf, or stem) consisting of cells & tissues & performing some specific function in an organism”. Select an option from the drop-down menu.

Outcome Screen – Disposition (4)

The screenshot shows a web form titled "Disposition". It contains several fields for recording patient disposition data:

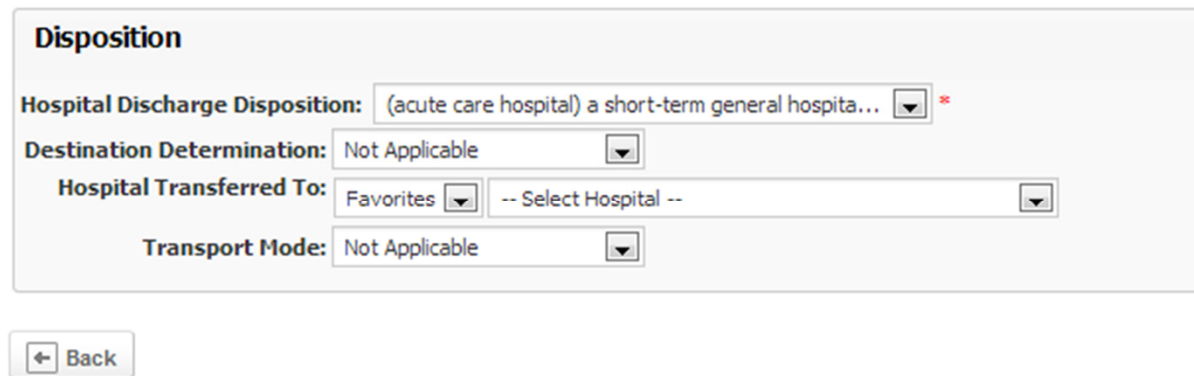

- Hospital Discharge Disposition:** A dropdown menu with "Expired" selected.
- Date/Time Death Occurred:** Two input fields for date and time, followed by "(HHmm)".
- Location of Death:** A dropdown menu with "Not Applicable" selected.
- Death Circumstance:** A dropdown menu with "Not Applicable" selected.
- Circumstances of Death:** A large text area for additional details.
- Organ Donation:** A dropdown menu with "Not Applicable" selected.
- Autopsy Performed:** A dropdown menu with "Not Applicable" selected.
- Advanced Directive:** A dropdown menu with "Not Applicable" selected.

At the bottom left of the form is a "Back" button with a left-pointing arrow.

The fifth element is the "Autopsy Performed" element (TR25.37) which is defined as "an examination of the patient's body after death to determine the cause of death or the character and extent of changes produced by disease". Select an option from the drop-down menu.

The sixth element is the "Advanced Directive" element (TR25.28) which is a determination whether the patient had an Advanced Directive. Select an option from the drop-down menu.

Outcome Screen – Disposition (5)

The screenshot shows a web-based form titled "Disposition" with a light gray background. It contains four main fields, each with a label and a dropdown menu:

- Hospital Discharge Disposition:** The dropdown menu is open, showing the selected option "(acute care hospital) a short-term general hospita..." and a red asterisk icon to its right.
- Destination Determination:** The dropdown menu is open, showing the selected option "Not Applicable".
- Hospital Transferred To:** This field has two parts: a "Favorites" dropdown menu and a larger dropdown menu showing "-- Select Hospital --".
- Transport Mode:** The dropdown menu is open, showing the selected option "Not Applicable".

Below the form, there is a "Back" button with a left-pointing arrow icon.

If "Acute Care Hospital" is selected in the "Hospital Discharge Disposition" element, three new data elements will appear on the form that will allow you to enter additional information regarding the patient's transfer. The first element is the "Destination Determination" element (TR25.42) which is defined as "the reason the facility transferred this patient to another acute care facility". Select an option from the drop-down menu. The second element is the "Hospital Transferred To" element (TR25.35) which is the name of the receiving facility the patient was transferred to. Select an option from the drop-down menu. To see a smaller list of hospitals, you can create a list of Favorite Hospitals and click the "Favorites" to sort the hospitals by which state they are located in. The default is "All" and you will see a list of all possible hospitals. The third element is the "Transport Mode" element (TR25.43) which is the type of transport entity that transferred the patient. Select an option from the drop-down menu.

Outcome Screen – Disposition (6)

Disposition

Hospital Discharge Disposition: (acute care hospital) a short-term general hospita... *

Destination Determination: Not Applicable

Hospital Transferred To: Other...

Facility:

City:

State: --Select State--

Transport Mode: Not Applicable

← Back

If “Other” is selected in the “Hospital Transferred To” element, three new data elements will appear on the form that will allow you to enter additional information regarding the hospital the patient was transferred to. The first element is the “Facility” element (TR25.39) which allows you to textually enter any other identifying facility not found on the available list of options to which the patient was transferred. The second element is the “City” element (TR25.40) which allows you to textually enter the name of the city in which the transfer facility is located. The third element is the “State” element (TR25.41) which allows you to select the state in which the transfer facility is located from the drop-down menu.

Outcome Screen – Disposition (7)

The screenshot shows a web form titled "Outcome Screen – Disposition (7)". The form is divided into several sections. At the top, there is a horizontal bar with a dropdown menu set to "Other" and a label "Third Other Billing Source:" followed by a text input field. Below this, on the left, is a section titled "Disposition" containing two dropdown menus: "Hospital Discharge Disposition:" (set to "Rehabilitation or long-term facility") and "Hospital Transferred To:" (set to "-- Select Rehabilitation Facility --"). To the right of the "Disposition" section is a "Back" button. At the bottom right of the form are two buttons: "Save" and "Save and Continue". A red dashed line with a red triangle pointing right is located at the bottom left of the form area.

If “Rehab or Long-Term Facility” is selected in the “Hospital Discharge Disposition” element, a new data element (TR25.35) will appear on the form that will allow you to select the name of the facility the patient was transferred. Select an option from the drop-down menu.

Click the “Save and Continue” button to save the information just entered and to continue to the next tab. Clicking the “Save” button will save the information, but you will not progress to the next tab.
